Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Amendment

This office action is in response to the amendment filed on 04/14/2008.

Claims 1-12, 43, 71-73 and 75-98 are pending for examination. Claims 1-2, 5-8, 43 and 75 have been amended; Claims 76-98 have been newly added.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12, 43, 71-73 and 98, drawn to data replication among multiple storage devices, classified in class 711, subclass 162.
- II. Claims 75-83, drawn to process read/write requests for distributing storage data, classified in class 707, subclass 200.
- III. Claims 84-86, drawn to executing local/remote software modules for local/remote storage devices communication and data distribution, classified in class 709, subclass 201.
- IV. Claims 87-97, drawn to process storage devices write requests for tracking a content file with different level protection schema, classified in class 714, subclass 006.

The inventions I, II, III and IV are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I (data replication among multiple storage devices) has separate utility such as replication data among multiple storage devices for archiving/backup the storage devices. Invention II (process read/write requests for distributing storage data) has separate utility such as manipulate I/O requests for distributing storage data. Invention III (executing local/remote software modules for local/remote storage devices communication and data distribution) has separate utility such as running software modules for local/remote storage devices communication and data distribution. Invention IV (process storage devices write requests for tracking a content file with different level protection schema) has separate utility such as processing storage devices write requests for tracking a content file with different level security protection schema.

Because these inventions are distinct and search groups I, II, III and IV are not required to be simultaneous for the reason given above which would raise a serious burden for the examiner, if restriction is not required since the inventions have acquired a separate status in the art in view of their different classification, therefore, restriction for examination purposes as indicated is proper.

Applicant is reminded that the reply to this restriction election to be completed must include an election of the invention to be examined within one month from the mailing date of this office action, even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SUSAN Y. CHEN whose telephone number is (571)272-4016. The examiner can normally be reached on Monday - Friday from 7:00-4:30.
